

ROCKY FLATS ENVIRONMENTAL TECHNOLOGY SITE REGULATORY CONTACT RECORD

Date/Time: June 19, 2002

Site Contact(s): Catherine Alstatt/Jacqueline Berardini
Phone: 303-966-3173

Regulatory Contact: James Hindman
Phone: 303-692-3345

Agency: CDPHE

Purpose of Contact: To discuss status of clean-up activities related to pondsludge spill at the 750 Pad.

Discussion

On June 12 Mr. Hindman was notified of the spill of ~75 gallons of sludge from a tank storing A/B pond sludge during transfer operations. He was advised that the sludge was contained on the asphalt pad and within Tent 4; and that containment and clean-up activities started immediately.

Mr. Hindman was informed today that, although the released sludge was cleaned up within 24 hours, additional sludge has continued to be discovered as the asphalt dries. More specifically, during decontamination the asphalt pad was wetted to assist in the clean-up. As the wetted areas dried, additional spots have been identified and cleaned-up. Based on an inspection of the area today, June 19, 2002, the asphalt pad is dry and there is no visible sludge remaining. Beryllium and radiological smears taken in the spill area indicate no contamination.
